◆ I'm a Java Developer with experience in Java application development, including the JEE stack. My skills include database management (PostgreSQL, MongoDB, Elasticsearch), ORM (Hibernate, Java Data JPA), frameworks (Spring MVC, Spring AOP for logging), API development and testing (Postman, Swagger), version control (Git, GitHub), build tools (Maven, some Gradle experience), and testing (JUnit 5, Mockito). I have practical experience applying these technologies in real-world projects, focusing on efficient, maintainable code and best practices in Java development.

EDUCATION

Profitsoft Internship

04/2024 - 07/2024

Remote Internship

Hillel IT School Java Enterprise

05/2023 - 08/2023

Online IT School

Hillel IT School Java Pro

10/2022 - 05/2023

Online IT School

National Technical University «Kharkiv Polytechnic Institute»

09/2008 - 03/2014

Kharkiv

Department

- Electric transport and locomotive building

WORK EXPERIENCE

Design Engineer GRAND

11/2020 - Present

Solonytsivka

Experience

- At GRAND company, I am engaged in transporting RIB boats. I design frames and stacks for their transportation by sea containers and land truck.

Design Engineer Electrovazhmash

10/2013 - 11/2020

Kharkiv

Experience

- At Electrovazhmash plant, I was involved in developing innovative products and mechanisms to facilitate the fastening and transportation of parts of the company's turbo generators, hydro generators, and large direct current machines.

SKILLS

Maven

Git/GitHub

Java core

Docker

Spring: Boot, MVC, AOP, Data JPA, Security, Cloud

Hibernate

Relational DB: PostgreSQL, MySQL

NoSQL: Mongo, Elasticsearch

JUnit 5/Mockito

MB: Kafka, RabbitMQ

Swagger

HTML/CSS

PERSONAL PROJECTS

Employees Spring Boot App (05/2023 - 10/2023)

- I developed an employee management application using Spring Boot and REST architecture, interfacing with a PostgreSQL database. It featured CRUD operations, implemented Spring Security and AOP, and included JUnit tests.

Library Multi-module App (04/2024 - 07/2024)

- Developed a multi-module Java application during internship: Spring Boot backend, React frontend, message brokers, email distribution, Spring Cloud Gateway. API services, OOP, React Router, WebSockets, Kafka, API routing. [Link to GitHub](#)

CERTIFICATES

Profitsoft, Internship (04/2024 - 07/2024)

[Certificate](#)

Hillel IT School, JAVA Enterprise (05/2023 - 08/2023)

[Certificate](#)

Hillel IT School, JAVA Pro (10/2022 - 05/2023)

[Certificate](#)
