Career objective :
Looking for a full-time job as
Trainee/Junior Java Developer

♦ I'm a Java Developer with comprehensive knowledge and practical experience in Java programming gained through the Java Developer course. Skilled in Object-Oriented Programming (OOP), Java application development, and proficiency in the Java Enterprise Edition (JEE) stack and related technologies. I have hands-on experience working with databases such as PostgreSQL and MySQL, utilizing Hibernate and Java Data JPA for data persistence. In addition, I have worked with Spring MVC, utilizing tools like Postman and Swagger for API testing and documentation. Additionally, I have actively worked with Spring AOP, utilizing it extensively for logging purposes in my projects. I am proficient in version control systems like Git and have actively used GitHub for code repository management. Moreover, I have experience with build automation tools such as Maven and some exposure to Gradle. I have also written unit tests for applications using JUnit 5, incorporating Mockito for mock object creation and testing.

WORK EXPERIENCE

Design Engineer
GRAND

11/2020 - Present   *Manufacturing enterprise of Kharkiv*

Experience
- At GRAND company, I am engaged in transporting RIB boats. I design frames and stacks for their transportation by sea containers and land tr
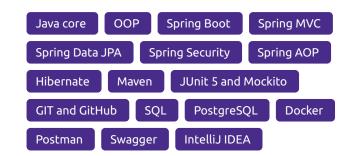

Design Engineer
Electrovazhmash

10/2013 - 11/2020   *Plant of Kharkiv*

Experience
- At Electrovazhmash plant, I was involved in developing innovative products and mechanisms to facilitate the fastening and transportation of parts of the company's turbo generators, hydro generators, and large direct current machines.

EDUCATION

National Technical University
«Kharkiv Polytechnic Institute»

09/2008 - 03/2014   *The University of Kharkiv*

Department
- Electric transport and locomotive building

Hillel IT Scool
Java Pro

10/2022 - 05/2023   *IT scool of Kharkiv*

Hillel IT Scool
Java Enterprise

05/2023 - 08/2023   *IT scool of Kharkiv*

SKILLS

Java core   OOP   Spring Boot   Spring MVC

Spring Data JPA   Spring Security   Spring AOP

Hibernate   Maven   JUnit 5 and Mockito

GIT and GitHub   SQL   PostgreSQL   Docker

Postman   Swagger   IntelliJ IDEA

PERSONAL PROJECTS

Employees Spring Boot App (05/2023 - Present)
- I am working on an application that handles employee data. The application interacts with a PostgreSQL database and performs operations such as adding, deleting, and updating employees. It is implemented using Spring Boot and follows the REST architecture. The application incorporates and extensively utilizes Spring Security and Spring AOP. And added JUnit tests.
